

DELTA-XRAY RADIO CLUB

Press Release

May 18th, 2008

171DX/1 AND 344DX/1 VOTED BEST EXPEDITIONS 2007

Two recent Delta-Xray Radio Club expeditions, 171DX/1 to Spitsbergen Island in the Svalbard archipelago and 344DX/1 to the Republic of Montenegro were awarded with the Delta-Xray Radio Club Expedition Award during the recent Delta-Xray Radio Club World Meeting in Wittenberg, Germany.

All approved DXRC activations were nominated and the members attending the recent Delta-Xray Radio Club meeting in Wittenberg were asked to vote for their favourite activations.

21DX116 Chris, Shadow DXers team leader says:

"We are very proud of receiving this award, specially as it is voted by DXRC operators. It really encourages us to seek new targets for cycle 24."

30DX401 Christian, team leader for the joint Invoker/Shadow DXRC 344 Expedition says:

"You don't have to go to the other side of the world to find an interesting "new one" to activate. We found two small, hard to land, rocks in 344 and it was an amazing trip"

The Delta-Xray Radio Club Expedition Award was created to encourage Delta-Xray and IOTA expeditions and will be given out yearly to acknowledge the best expedition of the previous year.

DXRC members will vote the winner online.

For more information contact DXRC President 47DX088 Mette at 47DX088@Delta-Xray.net.
