

DELTA-XRAY RADIO CLUB

DXRC WM 2009, Poznan, Poland

Once again Delta-Xray Radio Club arranged a fantastic Meeting for club members and guests.

In picturesque surroundings just outside Poznan, we had rented a campsite with fine Cottages for sleep.

The Meeting officially opened on Saturday at 10:00 AM – but all DXRC-members were asked to be present Friday evening to attend the traditional "Internal Meeting", only for DXRC-Members, which gives our members a fine chance to meet the DXRC Management Team for a chat about whatever is on the member's minds.

At the same meeting, the Management had a great opportunity to speak with the members, and hear their opinions about this or that.

As usual, the Meeting was a success. Soon after end some of our younger members took a taxi to Poznan center for visiting the local bars.

Saturday Morning the Meeting was opened with 1 minutes silence in respect for 19DX121 Mike, RIP.

Then the Presentations started, one led to the next.

After "DXRC's life" presented by 47DX002 Soren, Christian 30DX401 spoke about WWRO Island Festival Contest, 161DX012 Waldi about ESSB and 47DX162 Jan presented his activation 242DX/1.

One of the highlights was 317AT101 Andy's presented of his two 326-activations. First 326TRC/DX, after that this years 326AT/DX.

Andy even brought the newly printed QSL's with him and this was a fine gesture.

After some groups photos taken, we enjoyed local Polish Dinner and during Dinner our Polish hosts presented gifts to dedicated DXRC-members and we all got a Mug as a fine reminder of the Meeting.

Also the DXRC-award program was presented, see dedicated awards press release.

Saturday night was spend by some in Poznan City, and most in the friendly and cozy buildings "at home".

All setup by our Polish members:

161DX012 Waldi

161DX016 Mac

161DX018 Slawek

161DX137 Greg

Thanks to all for yet another great Meeting.

On behalf of Delta-Xray Radio Club

DXRC President

Mette 47DX088
